

Peterbilt Dual Drive

The Dual Drive Delivers Increased Driver Comfort

Sit Down Dual Drive Benefits

- ▶ Right-hand steering enhances curbside visibility for safer, more efficient operations.
- ▶ Retro-style gauge cluster on the right-hand side for classic look.
- ▶ Controls, gauges, and pedals on both sides for seamless driver operation.
- ▶ Upgraded trim delivers OEM-grade quality with enhanced scratch and impact resistance.
- ▶ Factory-built left-hand Peterbilt 220 equipped with our added right-side steering.
- ▶ Peterbilt Model 220

“With Fontaine’s sit-down dual-drive modification, drivers get the best of both worlds, as they can transition smoothly from one side of the cab to the other as needed throughout the day. Fontaine engineers have configured the right-side driving position to maintain similar ergonomics of the OEM left-side position. This helps make drivers more comfortable and productive throughout their shifts.”

– Jamil Young, President, Fontaine Modification

The Fontaine Advantage

The Fontaine Modification business model means that all our changes are fully documented and closely follow the OEM’s function and styling.

Our Innovation Model allows us to understand industry and customer needs, engineer and design a solution, and implement quality-driven production processes to efficiently modify and deliver trucks that meet your application needs.
