“Fontaine’s engineering team designed this Peterbilt 567 Auto Hauler to achieve an unmatched low roof height, giving fleets greater clearance and drivers better visibility.”

– Jamil Young, President, Fontaine Modification

The Fontaine Advantage

The Fontaine Modification business model means that all our changes are fully documented and closely follow the OEM’s function and styling.

Our Innovation Model allows us to understand industry and customer needs, engineer and design a solution, and implement quality-driven production processes to efficiently modify and deliver trucks that meet your application needs.
